

NVR hardware platform with scalable software

The Milestone Husky™ M500/M550 Advanced NVRs go beyond the ordinary all-in-one network video recorders (NVRs). Designed in a 2U rack form factor, they are purpose built high-performance surveillance recording hardware platforms. The M500A has a guaranteed support of 600Mb/s recording rate. The M550A has a guaranteed support of 1400Mb/s recording rate. Preloaded with Milestone XProtect Advanced VMS software, the units combine comprehensive video surveillance functions and high performance, with low total cost of ownership. This makes them the most versatile and capable recording platforms available with Milestone XProtect software.

Key Features

Easy system design - fast deployment

- Simplified product SKUs
- Easy-to-calculate system requirements using the Husky calculator
- Pre-installed with Windows 10 Operating System, Milestone XProtect Expert and XProtect Corporate
- Pre-licensed with XProtect Expert base software
- Quick setup with the Husky Assistant

High-performance NVR hardware platform

- Milestone exclusive designed and built hardware platform
- Performance guaranteed of 600 Mb/s or 1400Mb/s recording rate
- RAID Controller - optimized for streaming applications and supporting RAID 5/6/10/50
- Western Digital Purple Drives – optimized for surveillance NVRs

Expanded performance (M550A Only)

- 10Gbe LAN + Storage HBA using the Intel Converged Network Adapter X550T2
- Hot swappable, Dual Power Supply (n+1)

Scalable software

- Flexible licensing of either XProtect Expert or XProtect Corporate software
- Hardware optimized advanced VMS functions
- Full system NVR redundancy with hot or cold failover recording servers
- Real-time device load optimization with hardware move functionality
- Extend video storage with archiving to third-party NAS storage units

Lowest NVR total cost of ownership

- Industry leading price-performance ratio
- Lower support costs with Milestone Customer Dashboard provides proactive system monitoring tools and backup recovery image
- Software license portability lowers license administration and management costs
- Free upgrades to current Milestone XProtect software
- Includes a three-year hardware warranty and Milestone Care™ Plus for investment protection

About Milestone Systems

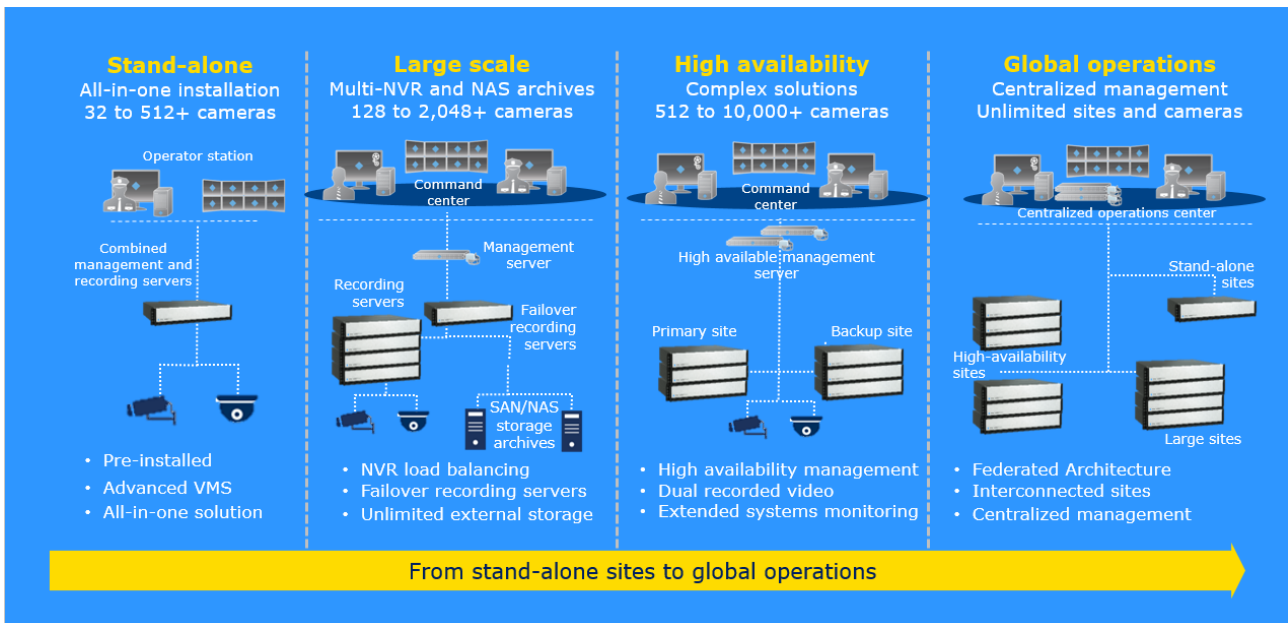

Milestone Systems is a global industry leader in open platform IP video management software, founded in 1998 and now operating as a stand-alone company in the Canon Group. Milestone technology is easy to manage, reliable and proven in thousands of customer installations, providing flexible choices in network hardware and integrations with other systems. Sold through partners in more than 100 countries, Milestone solutions help organizations to manage risks, protect people and assets, optimize processes and reduce costs. For more information, visit www.milestonesys.com

Solution versatility

Milestone Husky M500A / M550A are versatile NVRs which can be applied in a variety of system configurations. Traditionally NVRs are deployed as a stand-alone, all-in-one NVR installations but the Milestone Husky M500A / M550A Advanced NVRs can be deployed in many other ways. They can replace expensive IT servers for large-scale multi-NVRs environments which require the use of external storage archives. Unlike typical NVRs the M500A / M550A be used in high-availability complex solutions or global operations with centralized management.

NVRs are pre-installed with Milestone XProtect Expert and Corporate. The industry's #1 VMS is also the industry's most scalable software. Using Milestone's Advanced VMS products you can operate the Husky M500A or M550A as a dedicated primary or failover recording server, as management server, or ONVIF gateway. They can be used as an edge recording systems in remote locations which are connected to a centralized surveillance site using Milestone Federated Architecture or Milestone Interconnect. The possibilities are endless when you use Milestone XProtect products.

When building distributed surveillance installations, Husky M500A / M550A Advanced

Milestone Husky M500/ M550A are pre-licensed with XProtect Expert and pre-installed XProtect Corporate:

- ✓ Scalable VMS software
- ✓ High-performance NVR hardware platform
- ✓ Failover recording server support
- ✓ Comprehensive management & monitoring
- ✓ Metadata analytic support
- ✓ Hardware Accelerated Video Decoding
- ✓ Compatible with thousands of cameras
- ✓ Supports XProtect add-ons XProtect® add-

XProtect®
Smart Client
