

BUSINESS LEVEL OF INTERACTIVITY

The MULTIBOARD L-series from PRESTIGIO is a range of interactive flat panel displays (IFPD) with Windows PC. The device features impressive FHD screen, 10 points multitouch and protective housing for device public use. For business conference rooms and classrooms.

- FHD for presenting: Full High Definition (FHD) display animates even the most dull pictures. Be sure that everything you display with the MultiBoard is bright and crisp
- 10 points multi-touch: The best in class infrared technology now supports 10 points. Let the magic begin. View photos, manipulate data and apps. The MultiBoard picture is fast and responsive under your fingertips
- Powerful Windows PC: Windows 8.1 Professional and PC on Intel® Core™ i5-4460 CPU satisfies various business tasks. Connect freely to other PCs or screens with IN/OUT interfaces
- All-in-one device: The touch screen, Windows PC with Wi-Fi, stereo speakers and dedicated software — all work effectively together without any additional settings. Just plug in and play
- Protective housing: The MultiBoard is safe both in a classroom and in a public hall. Its screen is protected with 4 mm tempered glass and includes an aluminium casing for the whole device
